Review report by the independent auditor to the Board of Directors of Bahrain Family Leisure Company B.S.C.

Introduction

We have reviewed the accompanying condensed interim statement of financial position of Bahrain Family Leisure Company B.S.C. ("the Company") as at 30 June 2018, the condensed interim statement of profit or loss and other comprehensive income, the condensed interim statement of changes in shareholders' equity, the condensed interim statement of cash flows for the quarter and six months period then ended, and selected explanatory notes. The management of the Company is responsible for the preparation and fair presentation of these condensed interim financial statements in accordance with International Accounting Standard 34 - "*Interim Financial Reporting*". Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*." A review of condensed interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information does not present fairly, in all material respects, the financial position of the Company as at 30 June 2018, and of its financial performance and its cash flows for the quarter and six months period then ended in accordance with International Accounting Standard 34 - "*Interim Financial Reporting*".

Improvements/amendments to IFRS/IAS 2014/2016 and 2015/2017 cycles

Improvements/amendments to IFRS issued in 2014/2016 and 2015/2017 cycles contained numerous amendments to IFRS that the IASB considers non-urgent but necessary. 'Improvements to IFRS' comprise amendments that result in accounting changes to presentation, recognition or measurement purposes, as well as terminology or editorial amendments related to a variety of individual IFRS standards. The amendments are effective for the Company's annual audited financial statements beginning on or after 1 January 2018 and subsequent periods with earlier adoption permitted. No material changes to accounting policies are expected as a result of these amendments.

Standards, amendments and interpretations effective and adopted in 2018

The following new standard, amendment to existing standard or interpretation to published standard is mandatory for the first time for the financial year beginning 1 January 2018 and has been adopted in the preparation of these financial statements:

<u>Standard or interpretation</u>	<u>Title</u>	<u>Effective for annual periods beginning on or after</u>
IFRS 9	Financial instruments	1 January 2018
IFRS 15	Revenue from contracts with customers	1 January 2018

The impact of the adoption of IFRS 9 and 15 and related new accounting policies are disclosed in Note 3 below. The other standards did not have any significant impact on the Company's accounting policies and did not require retrospective adjustments.

Standards, amendments and interpretations issued and effective in 2018 but not relevant

The following new amendments to existing standard and interpretation to published standard is mandatory for accounting period beginning on or after 1 January 2018 or subsequent periods, but is not relevant to the Company's operations:

<u>Standard or interpretation</u>	<u>Title</u>	<u>Effective for annual periods beginning on or after</u>
IAS 28	Investments in associates	1 January 2018
IFRS 1	First-time adoption of International Financial Reporting Standards	1 January 2018
IFRS 2	Share-based payment	1 January 2018
IFRS 4	Insurance contracts	1 January 2018
IFRIC 22	Foreign currency transactions and advance consideration	1 January 2018

Standards, amendments and interpretations issued but not yet effective in 2018

The following new/amended accounting standards and interpretations have been issued, but are not mandatory for financial period ended 30 June 2018. They have not been adopted in preparing the financial statements for the period ended 30 June 2018 and will or may have an effect on the entity's future financial statements. In all cases, the entity intends to apply these standards from application date as indicated in the table below:

2 Basis of preparation (continued)

Standards, amendments and interpretations issued but not yet effective in 2018 (continued)

<u>Standard or Interpretation</u>	<u>Title</u>	<u>Effective for annual periods beginning on or after</u>
IAS 12	Income taxes	1 January 2019
IAS 19	Employee benefits	1 January 2019
IAS 23	Borrowing costs	1 January 2019

IFRS 3	Business combinations	1 January 2019
IFRS 11	Joint arrangements	1 January 2019
IFRS 17	Insurance contracts	1 January 2021
IFRIC 23	Uncertainty over income tax treatments	1 January 2019
IFRS 16	Leases	1 January 2019

There would have been no change in the operational results of the Company for the period ended 30 June 2018 had the Company early adopted any of the above standards applicable to the Company, except for IFRS 16, the impact of which is being assessed by the Company (See Note 3 for details).

Early adoption of amendments or standards in 2018

The Company did not early-adopt any new or amended standards in 2018.

3 Accounting policies

The accounting policies used in the preparation of the condensed interim financial information are consistent with those used in the annual audited financial statements of the Company prepared as at, and for the year ended 31 December 2017, as described in those annual audited financial statements except for those changed due to adoption of IFRS 9 and 15.

IFRS 9 - "Financial Instruments"

IFRS 9 replaces the provisions of IAS 39 that relate to the recognition, classification and measurement of financial assets and financial liabilities, derecognition of financial instruments, impairment of financial assets and hedge accounting.

The adoption of IFRS 9 Financial Instruments from 1 January 2018 has resulted in changes in accounting policies and adjustments to the amounts recognised in the financial statements. The new accounting policies are as set out below. In accordance with the exemptions available as per the transitional provisions in IFRS 9, the standard is applied retrospectively and the comparative figures have not been restated.

3 Accounting policies (continued)

IFRS 9 - "Financial Instruments" (continued)

Investments and other financial assets - Classification and measurement

The Company classifies its financial assets in the following measurement categories:

1. Fair value (either through OCI, or through profit or loss), and
2. Amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair value, gains and losses will be recorded in profit or loss. For investments in equity instruments that are not held for trading, fair value gains and losses recognition will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI). The Company reclassifies debt investments when and only when its business model for managing those assets changes.

A financial asset or financial liability is measured initially at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company classifies its debt instruments under amortised cost representing financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains/(losses), together with foreign exchange gains and losses. If there are any impairment losses, those are presented in the statement of profit or loss.

Equity instruments

The Company subsequently measures all equity investments at fair value. Changes in the fair value of financial assets at fair value through profit or loss are recognised in the statement of profit or loss as applicable.

From 1 January 2018, the Company assesses on a forward looking basis the expected credit losses associated with its trade receivables and debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk. The Company applies the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Investments and other financial assets - impact of adoption

Financial assets at fair value through profit or loss

Equity securities are measured at fair value and all changes in fair value are recognised in the statement of profit or loss under IFRS 9. The Company did not elect to take fair value changes to other comprehensive income. Therefore, there was no impact on the amounts recognized in relation to these assets from the adoption of IFRS 9 as previously these were also classified at fair value through profit or loss as allowed under IAS 39.

3 Accounting policies (continued)

IFRS 15 - "Revenue from Contracts with Customers"

IFRS 15 supersedes IAS 11 Construction Contracts, IAS 18 Revenue and related Interpretations and it applies to all revenue arising from contracts with customers, unless those contracts are in the scope of other standards. The new standard establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The standard requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract.

Sale of Goods

The Company's contracts with customers for the sale of goods generally include one performance obligation. The Company has concluded that revenue from sale of goods should be recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods. Therefore, the adoption of IFRS 15 did not have an impact on the timing of revenue recognition

Services income

Revenue from providing services is recognised in the accounting period in which the services are rendered. For fixed-price contracts, revenue is recognised based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided, because the customer receives and uses the benefits simultaneously.

In case of fixed-price contracts, the customer pays the fixed amount based on a payment schedule. If the services rendered by exceed the payment, a contract asset is recognised. If the payments exceed the services rendered, a contract liability is recognised.

Determining the transaction price

The Company's revenue is derived from fixed price contracts and therefore the amount of revenue to be earned from each contract is determined by reference to those fixed prices.

IFRS 16 "Leases"

IFRS 16 was issued in January 2016. It will result in almost all leases being recognised on the balance sheet, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases.

The standard will affect primarily the accounting for the Company's operating leases. As at the reporting date, the Company has non-cancellable operating lease commitments. However, the Company has not yet determined to what extent these commitments will result in the recognition of an asset and a liability for future payments and how this will affect the Company's profit and classification of cash flows.

Some of the commitments may be covered by the exception for short-term and low-value leases and some commitments may relate to arrangements that will not qualify as leases under IFRS 16.

The standard is mandatory for first interim periods within annual reporting periods beginning on or after 1 January 2019. The Company does not intend to adopt the standard before its effective date.

10 Earnings/(loss) per share

Basic earnings/(loss) per share is calculated by dividing the net profit or loss attributable to the shareholders by the weighted average number of ordinary shares issued during the period, excluding the treasury shares purchased and held by the Company.

	Quarter ended <u>30 June 2018</u> (Unaudited)	Quarter ended <u>30 June 2017</u> (Unaudited)	Six months period ended <u>30 June 2018</u> (Unaudited)	Six months period ended <u>30 June 2017</u> (Unaudited)
